INTRODUCTION

Dear kids and parents,

Welcome to Dr. Pooper's Activity Book and Poop Calendar for Kids!

You probably never expected to buy an activity book about poop and pee, but we think you'll be glad you did.

Constipation isn't fun – that's for sure. But the kids who tested this book had a ton of fun with the puzzles, mazes, games, and drawing activities.

There's something for all ages and interests in this book! Younger artists will love the coloring; older artists will enjoy the Learn-to-Draw pages, created by our wonderful illustrator, Cristina Acosta. Wordsmiths will flip straight to the word searches, word scrambles, crossword puzzles, and Rhyme It! games. Quick: Can you think of four words that rhyme with "floppy"?

The Wordfinder puzzles will challenge 5-year-olds and 10-year-olds alike (and parents, too!). Younger kids can look for the 2-letter words in CONSTIPATION; middle-schoolers will have fun hunting for the 6-letter words. Mom and Dad will find challenges, too!

Children who own *Bedwetting and Accidents Aren't Your Fault* and *Jane and the Giant Poop* will recognize the characters and artwork from those books.

The poop calendars at the back of the book make it fun and easy for kids to track how often they poop and what their poop looks like.

We love to hear from kids and parents! Email us and let us know which games you like best and any ideas you have for new ones.

Enjoy the games!

PART 1:

Different Shapes of Poop

Did you know...?

Healthy poop is mushy, like *pudding*, thin snakes, or frozen yogurt. But if your poop looks like rabbit pellets, sausage, or a big log, you're constipated. This means poop is stuck in your belly. That's OK — we'll get it all fixed!

On page 87, you'll find coloring charts to track the shape of your poop every day.

PART 2:

All About Pooping!

Did you know...?

Your body is like a poop factory that never closes!
It's always making poop.

Here's how your body makes poop:

After you chew your food, the mashed-up bits travel down a tube called the esophagus and into your stomach. There it gets mashed into smaller bits.

These bits move into a long, twisty tube called the small intestine. The bits your body doesn't need travel to your colon — also called your large intestine — to become poop!

The end of your colon is called your rectum.
It's where poop hangs out before you let it out of your anus.

NAME THE PARTS

Fill in the name of each body part involved in digesting food and pooping.

Did you know...?

If you don't let poop out every day, it starts piling up and hardening in your rectum.

When the poop pile gets super big, it stretches your rectum, the way a snake's belly stretches after the snake eats a rat for dinner!

The big lump of poop is called constipation.
It can give you a stomach ache!

Color It!

Follow these 4 steps to draw a snake.

Match the Shadow

Circle the shadow that exactly matches the snake with the rat in its belly.

Dr. Pooper says...

When Jane and her mom visited Dr. Pooper, he told them:

“Lots of folks think a big log is just fine. However, it’s actually a great big sign.”

“It means poop has piled up at the end of your colon, in a place called the rectum, which becomes stretched and swollen.”

“A pile-up of poop is called ‘constipation,’ and happens to kids every day, not just on vacation.”

- d) The size of a watermelon.

2) How long is your colon, also known as your large intestine?

- a) 3 feet
- b) 5 feet
- c) 7 feet
- d) 11 feet

3) How long is your small intestine?

- a) 5 feet
- b) 10 feet
- c) 22 feet
- d) 30 feet

4) How long does it take food to get from your mouth, down your esophagus, and into your stomach?

- a) 7 seconds
- b) 14 seconds
- c) 21 seconds
- d) 28 seconds

5) After you eat, how long does it take food to get through your stomach and small intestine?

- a) 2 to 3 hours
- b) 6 to 8 hours
- c) 10 to 12 hours
- d) 22 to 24 hours

Dr. Pooper says...

There are many ways to flush out
poop that's stuck in your rectum.

Enemas help the most.

The gentle spray of water loosens and
softens the poop that's stuck, the way
water streaming from a hose can turn a
hard clump of dirt into mud.

After an enema, you feel better because
your belly isn't stuffed with poop anymore!

Find the Differences

Circle the 8 differences between these two drawings.

Did you know...?

If you're constipated, it helps to take medicine that softens poop, so it comes out more easily. You can choose from different kinds of "mushy poop" medicines:

Hello, mushy
poop powder.
Bye-bye,
tummy aches!

- Powder that you mix with water or other drinks
- Syrup you pour into a little cup or a spoon
- Tablets you swallow
- Tablets you chew

You might need to try different medicines before you figure out which ones work best for your body.

WHICH TWO ARE IDENTICAL?

Circle the two cannisters of mushy-poop powder that are exactly the same.

Dr. Pooper says...

When you poop, sit on the toilet for at least 5 minutes. Don't just hop right off! What if you don't feel like you have to poop? Sit for 5 whole minutes, anyway. You won't know until you try.

DECODE THE MESSAGE

Use Morse Code to reveal a message from Dr. Pooper about the best time of day to poop.

Did you know...?

Poop comes out more easily if you poop with a tall stool under your feet?

A tall stool puts your body in a squatting position, so your pooping muscles relax. These muscles can't relax when your feet are dangling.

Have you ever pooped in the woods on a camping trip? If you have, you know what it's like to poop in a squat: Poop practically just slides out!

CROSSWORD: FOLLOW YOUR FOOD!

Use the clues to fill in the puzzle. The words relate to how your body makes poop and pee.

Across:

- 3 Your body's "exit door" for poop
- 5 Food slides down this tube to get to your stomach
- 8 The longest organ in your body
- 9 Needed for chomping!
- 10 It moves food around your mouth
- 11 It gets squished when your rectum is stuffed with poop

Down:

- 1 Where poop forms
- 2 You need teeth to do this
- 4 Another name for large intestine
- 6 Where poop piles up if you don't let it out
- 7 Liquid in your mouth that breaks down food
- 8 Where your food lands after you swallow it

PART 3: All About Peeing

Did you know...?

Your bladder is a stretchy bag that holds your pee. It's sort of like a balloon.

When you eat watery foods — like fruits, vegetables, or soup — or when you drink a beverage, your bladder starts to fill up. When it gets full enough, your bladder sends a signal to your brain telling you: It's time to pee! Your bladder stays big and healthy when you listen to the signal and pee often.

Find the Differences

Circle the 8 differences between the two drawings.

Did you know...?

When your rectum is stretched out by poop, it presses against the bladder, and this makes your bladder go nutty. That's why some constipated kids have to pee really badly or pee very often.

Here's how Dr. Pooper explains it in *Jane and the Giant Poop*.

"A bladder that's squished can get grouchy and mad, which makes children say, 'I have to pee REALLY bad!'"

MAZE

Jane is at the toy store when she *really* has to pee. Help her find the toilet quickly!

Did you know...?

When your rectum gets too stuffed with poop, it squishes the bladder, which can make the bladder hiccup! Pee can leak out before you can wake up or get to the bathroom.

Pee accidents are called **enuresis**.

WORDFINDER

How many words can you make out of **ENURESIS** (not including plurals)?

2-letter words: _____

3-letter words: _____

4-letter words: _____

5-letter words: _____

6-letter words: _____

WHICH TWO ARE IDENTICAL?

Circle the two squished bladders that are exactly the same.

Did you know...?

When you clean out your rectum with enemas and mushy-poop medicine, your rectum will shrink back to regular size and stop squishing your bladder.

Sometimes fixing the problem can take a long time, so try to be patient!

Rhyme It!

How many words can you rhyme with **SHRINK**?

Dr. Pooper says...

Accidents are like sneezes:
They come on very suddenly and
you just can't control them.

Sometimes adults wonder if kids wet
their bed or their pants on purpose.
But kids don't, of course!

WHAT DID DR. POOPER SAY?

Cross out all the lower-case letters, g's and j's to find out what Dr. Pooper says about accidents. Then copy the letters into the message below.

Did you know...?

Poop accidents are caused by constipation. When poop piles up in and stretches the rectum, the rectum becomes floppy, the way your t-shirt will get floppy if you stretch it over your knees.

A floppy rectum can't hold in all your poop.
So, some of it just drops out your bottom.
You might not even feel the poop fall out.

Poop accidents are called **encopresis**.

Cleaning out your rectum every day with enemas will help it shrink back to regular size so the poop accidents will stop.

Rhyme It!

How many words can you rhyme with **FLOPPY**?

PART 5:

Using the Bathroom at School

Dr. Pooper says...

It's really important to use the bathroom every two hours at school!

Holding in your pee or poop is not healthy for your bladder or rectum. Peeing often during the school day will help keep your bladder from going nutty and leaking at night.

If your teacher has a rule against using the bathroom during class time, tell a parent, so your mom or dad can talk to your teacher.

Your teacher will understand!

Jane and her teacher have a secret code for communicating during class. Using Morse Code, she signals this secret message during class.

Drinking lots of water keeps your bladder healthy and helps keep your poop mushy! Keep a water bottle on your desk at school, and drink from it often.

RECIPES

Here are two yummy recipes
you can make with fruit!

Creamy Chocolate Banana Pudding - Makes about eight 1/2-cup servings

INGREDIENT LIST:

- 2 ripe avocados
- 4 ripe bananas, peeled
- 1/2 cup plus 3 tablespoons unsweetened cocoa powder
- 1/2 cup unsweetened coconut milk or cow's milk
- 1-1/2 teaspoons pure vanilla extract
- 4 to 5 tablespoons pure maple syrup

DIRECTIONS:

- Scoop out the flesh of the avocado and place in a food processor or high-speed blender.
- Add remaining ingredients.
- Process until creamy, stopping to scrape down the sides. Add additional maple syrup to taste.
- Serve immediately or store in air-tight container in refrigerator.

Fluffy Blueberry Pancakes - Makes about 12 pancakes

INGREDIENT LIST:

- 1 large egg
- 1 cup white whole wheat flour
- 1 cup milk
- 1 tablespoon honey
- 1 tablespoon canola oil
- 3 tablespoons ground flaxseed
- 2 teaspoons baking powder
- 1/2 teaspoon vanilla
- 1/8 teaspoon salt
- 1 cup frozen blueberries
- 1/2 tablespoon butter, melted

DIRECTIONS:

- Beat egg until light and fluffy. Add flour and remaining ingredients (through salt) and stir just until combined. Fold frozen blueberries into batter.

- While batter rests, preheat skillet. Brush melted butter onto surface. When skillet sizzles, drop batter on using a quarter-cup measure. When surface bubbles and bottom is brown, flip pancakes. Repeat until batter is done.

RECIPES

Here are two great recipes
you can make with beans.

Very Lemony Homemade Hummus

INGREDIENT LIST:

2 (15-ounce cans) chickpeas (drain and reserve the liquid)
Juice of 3 lemons
1 teaspoon salt
Ground pepper to taste
1 clove chopped garlic (or 1/2 tsp. jarred minced garlic)
3 tablespoons tahini paste (found in "ethnic foods" section)
1/4 cup olive oil

DIRECTIONS:

Place beans, lemon juice, salt, pepper, garlic, and tahini in blender or food processor. As you blend, drizzle in olive oil. Scrape side and continue to blend, drizzling in reserved liquid from beans until you get the consistency you want. Store in the refrigerator in an air-tight container.

Hearty Beans and Greens Soup - Serves 6 to 8

INGREDIENT LIST:

2 tablespoons olive oil
1 medium yellow onion, chopped
2 ribs celery, thinly sliced
4 cloves garlic, finely chopped
1 teaspoon kosher salt
8 cups low-sodium chicken broth
1 pound Yukon Gold or russet potatoes (2 medium),
cut into 1/2-inch pieces
1 bunch kale, stemmed and torn into small pieces
1 tablespoon chopped fresh rosemary
2 (15.5-ounce) cans cannellini beans, rinsed and drained
1/4 cup (1 ounce) grated Parmesan cheese
1/2 teaspoon black pepper

DIRECTIONS:

Heat oil in a large pot over medium-high heat. Add onion, celery, garlic, and 1/2 teaspoon salt and cook, stirring often, until softened, about 10 minutes.

Add chicken broth and bring to a boil. Add potatoes, kale, rosemary, and the remaining 1/2 teaspoon salt and simmer until the vegetables are tender, about 15 minutes. Stir in beans, Parmesan, and pepper. Simmer to heat through.

Refrigerate in an airtight container for up to 4 days or freeze for up to 2 months.

"A great resource for kids
with constipation and potty
accidents! It helps them talk about it
without embarrassment and understand
and resolve their problems."

— Mike Garrett, M.D.
Family Physician
Direct MD, Austin TX

"Engages both parents
and children to be aware of their
bowel and bladder habits in a fun way.
I will definitely recommend this
book to my patients."

— James Sander, MD
